## DESIGNED FOR LOWER VOLUME APPLICATIONS

Two - 4 oz. Servings per Minute - 7 Quart Capacity

### GREAT FOR CAFES, RESTAURANTS, AND PRODUCT SAMPLING

The **SaniServ** model 407 Soft Serve Freezer is perfect for providing small servings, samplers, and adding a-la-mode to favorite desserts. The 407 is an economical addition to any restaurant with its affordable price and space saving countertop solution. The 407 is always a favorite among operators to supply a limited amount of soft serve ice cream and frozen yogurt products to keep customers coming back for more treats!

### SPACE SAVING

**Small Footprint Design** - **SaniServ** model 407 saves valuable floor space and turns the countertop into a real profit center by serving high profit ice cream and yogurt products.

### EASY CLEANING AND OPERATION

**Fewer Parts = Simplified Cleaning** – **SaniServ** equipment is designed and built with the fewest parts to be disassembled, cleaned and sanitized than any other machine in the industry.

### HIGH RETURN ON INVESTMENT

**Increased Profits** – **SaniServ** machines combine efficiency with consistent product quality and fast, quiet operation while insuring customer satisfaction with high profit ice cream or yogurt products.

### QUALITY DESIGN

**Durability** – **SaniServ** machines are built to achieve long and dependable life through simplicity of design. Every machine is shipped standard with a stainless steel exterior, durable steel interior frame construction, heavy-duty components and consistency systems.

## DESIGNED FOR HIGHER VOLUME APPLICATIONS

Seven – 4 oz. Servings per Minute per side and 17 Quart Capacity per side

IDEAL FOR SELF-SERV BUFFETS, CAFETERIAS, QUICK SERVICE RESTAURANTS

The **SaniServ** model 522 Soft Serve Freezer provides the highest volume of two individual flavors as well as a flavor twist. The 522 offers the highest volume of high profit, consistent quality soft serve and yogurt products in the **SaniServ** product lineup. Two large independent flavor product reservoirs and barrels guarantee separation of product and flavors. Always easy to operate, large product capacity and quick recovery time insure customers receive their favorite flavors individually or with a twist!

### SPACE MAXIMIZING

**Traditional Floor Model Design - SaniServ** model 522 turns valuable floor space into a real profit center by serving the highest volume of two high profit ice cream and yogurt product flavors along with the ability to twist the flavors into a frozen favorite.

### EASY CLEANING AND OPERATION

**Fewer Parts = Simplified Cleaning – SaniServ** equipment is designed and built with the fewest parts to be disassembled, cleaned and sanitized than any other machine in the industry. The state of the art solid-state **AccuFreeze** control insures product consistency, worry-free operation and customer satisfaction.

### HIGH RETURN ON INVESTMENT

**Increased Profits – SaniServ** machines combine efficiency with consistent product quality and fast, quiet operation while insuring customer satisfaction with high profit ice cream or yogurt products.

### QUALITY DESIGN

**Durability – SaniServ** machines are built to achieve long and dependable life through simplicity of design. Every machine is shipped standard with a stainless steel exterior, durable steel interior frame construction, heavy-duty components and consistency systems.

## DESIGNED FOR HIGH VOLUME APPLICATIONS

**Seven – 4 oz. Servings per Minute - 7 Quart Capacity**

### INCREASE YOUR PROFITS

Combine efficiency with consistent, high overrun, high quality product and fast, quiet operation to insure customer satisfaction with high profit ice cream products.

### DIAL IN YOUR OVERRUN

You can set the percentage of overrun to maximize your yield, taste, mouth appeal and profit. The 914 delivers the same overrun from the start of the day till the end.

### FAST SERVICE

Just pull the spigot handle to dispense the product. The pressurized 914 delivers product at a fast, even pace.

### HIGH VOLUME OF PRODUCT

Up to seven 4 oz. servings per minute. Fast recovery insures availability of product for high volume operations, even during peak periods. Ideal for Quick Serve Restaurants, Full Service Operations, C-stores, Concessionaires, and Stadiums.

### REFRIGERATED CABINET

Is designed to hold 8 gallons of fresh soft serve mix in the integral cabinet and to maintain the product in the reservoir at a uniform temperature that exceeds even the most stringent standards.

### STATE OF THE ART MIX DELIVERY SYSTEM

The unique peristaltic pump and air mix delivery system are front mounted for easy access, cleaning and adjustments.

### STATE OF THE ART MIX OUT SYSTEM

Tamper proof system alerts the operator when product in the reservoir is low and needs to be replenished.

### FAST, EASY CLEANING

**SaniServ** equipment is design to be easily cleaned and sanitized, with the fewest parts possible for rapid assembly and disassembly.

### INVEST IN EQUIPMENT BUILT TO LAST

**SaniServ** soft serve machines achieve long and dependable life through simplicity of design, durable steel frame construction, heavy-duty components and torque system. Shipped standard with stainless steel exterior.

## DESIGNED FOR HIGHER VOLUME APPLICATIONS

Five – 16 oz. Servings per Minute – 20 Quart Capacity

**GREAT FOR RESTAURANTS, BUFFETS, & ICE CREAM SHOPS**

The **SaniServ** model 614 Shake Freezer provides high profit, consistent quality shakes in a traditional single barrel flavor design! The 614 ease of operation is a favorite among owners and operators. The high production, capacity and recovery time insures the 614 is a perfect piece of equipment for satisfying customer demand. By adding a drink spinner and syrup rail, the 614 is sure to provide everyone's favorite shake flavor!

### SPACE SAVING

**Compact Floor Model Design - SaniServ** model 614 provides a high volume of milk shake in the traditional floor model design. Operators can turn that valuable floor space into a high profit center by providing consistent high quality shakes customers demand.

### EASY CLEANING AND OPERATION

**Fewer Parts = Simplified Cleaning – SaniServ** equipment is designed and built with the fewest parts to be disassembled, cleaned and sanitized than any other machine in the industry. The state of the art solid-state **AccuFreeze** control insures product consistency, worry-free operation and customer satisfaction.

### HIGH RETURN ON INVESTMENT

**Increased Profits – SaniServ** machines combine efficiency with consistent product quality and fast, quiet operation while insuring customer satisfaction with high profit ice cream or yogurt products.

### QUALITY DESIGN

**Durability – SaniServ** machines are built to achieve long and dependable life through simplicity of design. Every machine is shipped standard with a stainless steel exterior, durable steel interior frame construction, heavy-duty components and consistency systems.

## DESIGNED FOR HIGH VOLUME APPLICATIONS

20 Gallons per Hour per side and 20 Quart Capacity per side

### HIGH PRODUCTION AND TWO FLAVORS IN A FLOOR MODEL DESIGN

The **SaniServ** model 724 Floor Model Frozen Beverage Freezer provides not one but two frozen beverage flavors in a high production floor model machine! The output and versatility of the 724 means owners and operators can offer two frozen best sellers. Because each side of the machine utilizes its own 2 HP refrigeration system, customers are always insured of getting their favorites!

#### HEAVY DUTY

**Floor Model Design - SaniServ** model 724 provides a high volume of frozen beverages in the traditional floor model design. Operators will enjoy the ease of operation and the ability to utilize the 724's versatility to provide the different types of frozen beverages that customers want!

#### EASY CLEANING AND OPERATION

**Fewer Parts = Simplified Cleaning – SaniServ** equipment is designed and built with the fewest parts to be disassembled, cleaned and sanitized than any other machine in the industry. The state of the art solid-state **AccuFreeze** control insures product consistency, worry-free operation and customer satisfaction.

#### HIGH RETURN ON INVESTMENT

**Increased Profits – SaniServ** machines combine affordable efficiency with consistent product quality and fast, quiet operation to insure customer satisfaction with high profit frozen beverages.

#### QUALITY DESIGN

**Durability – SaniServ** machines are built to achieve long and dependable life through simplicity of design. Every machine is shipped standard with a stainless steel exterior, durable steel interior frame construction, heavy-duty components and consistency systems.

## DESIGNED FOR MEDIUM VOLUME APPLICATIONS

**10 Gallons per Hour per side & 14 Quart Capacity per side**

### OFFER TWO DIFFERENT FLAVORS IN ONE MACHINE!

The **SaniServ** model 798R Counter Model Frozen Beverage Freezer can provide two frozen beverage favorites in one machine! With an independent drive system in each side of the machine, product can be easily maintained and or changed in either side when desired! The 798R's mix pan is also refrigerated to ensure quicker recovery time. By offering not one, but two frozen products, owners and operators will insure every customer stays satisfied and increase their operating profits! The 798R's remote refrigeration system is ideal for lowering costly indoor air conditioning operating costs by providing less heat build up while providing quieter operation!

### SPACE SAVING

**Small Footprint Design** - **SaniServ** model 798 provides two frozen beverage flavors in a counter-top model design. Operators will enjoy the ease of operation and the versatility to offer two different types of frozen beverages that customers desire at the same time!

### EASY CLEANING AND OPERATION

**Fewer Parts = Simplified Cleaning** – **SaniServ** equipment is designed and built with the fewest parts to be disassembled, cleaned and sanitized than any other machine in the industry. The state of the art solid-state **AccuFreeze** control insures product consistency, worry-free operation and customer satisfaction.

### HIGH RETURN ON INVESTMENT

**Increased Profits** – **SaniServ** machines combine affordable efficiency with consistent product quality and fast, quiet operation to insure customer satisfaction with high profit frozen beverages.

### QUALITY DESIGN

**Durability** – **SaniServ** machines are built to achieve long and dependable life through simplicity of design. Every machine is shipped standard with a stainless steel exterior, durable steel interior frame construction, heavy-duty components and consistency systems.

## DESIGNED FOR HIGH VOLUME APPLICATIONS

**20 Gallons per Hour per side and 5 Quart Evaporator Capacity per side**

### AUTO-FILL SYSTEM FOR CONTINUOUS PRODUCT SUPPLY!

The **SaniServ** model WB700-2 Twin Head Frozen Beverage Freezer, with Remote Refrigeration and Auto-Fill, is designed to provide a high volume of frozen beverages through a continuous product source such as "bag in the box" or pre-mixed product supply systems. The remote refrigeration system lowers the cost of indoor air-conditioning and reduces heat and noise levels.

### COUNTERTOP CONVENIENCE

The **SaniServ** WB700-2, with Remote Refrigeration and Auto-Fill system, quietly provides **two flavors** of high volume, high profit frozen beverages at the countertop without the mess of product filling.

### EASY CLEANING AND OPERATION

**Fewer Parts = Simplified Cleaning** – **SaniServ** equipment is designed and built with the fewest parts to be disassembled, cleaned and sanitized than any other machine in the industry. ## Designed For High Volume Applications

Great for use with any Frozen Beverage Machine

The **SaniServ** SAFS 12 or SAFS 24 is a complete, integrated Auto Fill System for use with pre-mixed products, in any frozen beverage application.

### EASY PRODUCT HANDLING

**One or Two Vat Systems** - Save valuable floor space with the compact design of **SaniServ**'s exclusive Mix Vat cart. Designed for transportation of either one or two 12-gallon mix vats, the heavy duty cart comes with heavy duty casters (two of which are locking), push handle and mix vat locking plate.

### AUTO FILL PUMP SYSTEM

**Complete Electric Pump System** – A recirculating timer is installed on a stainless steel platform, which sits on the lid of the mix vat. Simply plug into a 115 volt outlet and it's ready to go. The stainless steel pump platform fits into a slot on the handle for easy storage when filling, cleaning or transporting mix vats.

### EASY OPERATION

**Recirculating Timer** – Set timer to turn on the pump every hour for up to two 15-minute intervals to insure product is completely mixed.

**Easy Cleaning and Filling** – Simply roll the Mix Vat cart to the sink area to wash, sanitize and refill vats. No heavy lifting of mix containers to refill machine.

### MAXIMIZE YOUR PROFITS

**Consistent Product Quality** – Combine efficiency, product quality, cost control, ease of use and simplicity of operation. Always have product available during peak hours of operation.

### COMPACT DESIGN

The small footprint easily fits into any operation using minimum cooler space.

## Bucket Hanger Kit

The heavy duty **SaniServ** bucket hanger is designed to eliminate the need for an employee to stand and hold a 25 to 30 pound bucket under the spigot while draining product, cleaning solutions or sanitizer during the cleaning process. Typically, rather than holding the bucket, the employee will rest it on the drip tray where the bucket can slip and spill. If the bucket has a bail they will hang it on the spigot plunger or handle. Hanging the bucket on the spigot eventually leads to the face plate cracking. It is not a case of *if* it will crack, but *when* it will crack. We have received many complaints from end users about cracking face plates. When we receive the face plate for inspection, 99% of the cracks are stress cracks caused by buckets hanging from the spigot. This is a very expensive part to replace.

The new bucket hanger fits on the top of the machine with one end extending into the mix pan and then hangs over the front of the machine. The hook on the front of the bucket hanger holds the bail of the bucket, allowing it to swing under the spigot opening. This makes the process nearly hands free.

The bucket hanger is made of 11 gauge stainless steel and will support up to 20 quarts of liquid. The bucket hangers are machine specific, therefore, you will need to specify the model number when ordering the bucket hanger. Bucket hangers are sold separately and in a kit, which includes a specially designed heavy duty **SaniServ** bucket.

Cleaning Buckets and rerun containers increase your productivity with **SaniServ** Products!

## Cord Sets

**SaniServ** is pleased to announce the availability of the cord, plug and receptacle options for all 230 volt machines. The cord and plug will be assembled but not attached to the machine and shipped with receptacle. This is part of our “Plug and Play” concept. Making ownership of **SaniServ** equipment as friendly as possible is top priority.

Made in USA

We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.

20 Amp, 1 Phase cord shown, receptacle not shown

MACHINE MODEL	CORD SET
401, 601, 709 - 1 Phase	13481
404, 414, 501, 527, 614, 704, 714 - 1 Phase	13486
424, 522, 624, 724, 824 - 1 Phase	188648 *
408 - 1 Phase	13487
521 - 1 Phase	188644 *

# Almost Plug and Play

## The *AccuFreeze* Advantage

1. **AccuFreeze** controls have no moving parts to wear out, break or maintain. This state-of-the-art electronic design is preset at the factory for optimum product control.
2. **AccuFreeze** utilizes viscosity not temperature to control the quality of the product being served. This process creates the smoothest most consistent frozen treats available today.
3. **AccuFreeze** provides personalized product preference settings by incorporating one simple adjustment for consistency control. No more grooved pulleys, springs or idlers that squeak and need adjusting. This provides trouble free operation for the machine owner.
4. **AccuFreeze** uses a specially designed “V” belt that wears in not out. This feature provides the quietest operating machine available in the industry.
5. **AccuFreeze** controllers incorporate a self diagnostic feature that provides the servicer with vital information in the unlikely event of a service call. This shortens trouble shooting time for the servicer lowering service costs for the owner.
6. **AccuFreeze** incorporates a three minute lockout timer to prevent machine damage due to operator error. **AccuFreeze** protects the owner’s investment by preventing freeze ups due to low mix in the reservoir.
7. **AccuFreeze** controls provide for worry free operation that provides the best quality product in the industry. It is so easy that any one can do it. We like to call our new **AccuFreeze** controlled units plug and play. Just plug them in and they do the rest.

**SaniServ**

Serving you yesterday, today and tomorrow.
